## FICO Announces Earnings of \$5.16 per Share for Second Quarter Fiscal 2024

Revenue of \$434 million vs. \$380 million in prior year

BOZEMAN, Mont.--(BUSINESS WIRE)--April 25, 2024--FICO (NYSE:FICO), a leading predictive analytics and decision management software company, today announced results for its second fiscal quarter ended March 31, 2024.

### Second Quarter Fiscal 2024 GAAP Results

Net income for the quarter totaled \$129.8 million, or \$5.16 per share, versus \$101.6 million, or \$4.00 per share, in the prior year period.

Net cash provided by operating activities for the quarter was \$71.0 million versus \$89.8 million in the prior year period.

### Second Quarter Fiscal 2024 Non-GAAP Results

Non-GAAP Net Income for the quarter was \$154.5 million versus \$121.4 million in the prior year period. Non-GAAP EPS for the quarter was \$6.14 versus \$4.78 in the prior year period. Free cash flow was \$61.6 million for the current quarter versus \$88.3 million in the prior year period. The Non-GAAP financial measures are described in the financial table captioned "Non-GAAP Results" and are reconciled to the corresponding GAAP results in the financial tables at the end of this release.

### Second Quarter Fiscal 2024 GAAP Revenue

The company reported revenues of \$433.8 million for the quarter as compared to \$380.3 million reported in the prior year period.

"We delivered a strong second quarter, posting double-digit growth across all our guided metrics," said Will Lansing, chief executive officer. "We are pleased to announce that we are raising our full year guidance."

Revenues for the second quarter of fiscal 2024 for the company's two operating segments were as follows:

- *Scores* revenues, which include the company's business-to-business (B2B) scoring solutions, and business-to-consumer (B2C) solutions, were \$236.9 million in the second quarter, compared to \$198.5 million in the prior year period, an increase of 19%. B2B revenue increased 28%, driven largely by higher unit prices, which were partially offset by a decrease in mortgage origination volumes. B2C revenue decreased 4% from the prior year period due to lower volumes on myFICO.com business.
- *Software* revenues, which include the company's analytics and digital decisioning technology, were \$196.9 million in the second quarter, compared to \$181.8 million in the prior year period, an increase of 8%, due to increased recurring revenue, partially offset by a decrease in professional services. Software Annual Recurring Revenue was up 14% year-over-year, consisting of 32% platform ARR growth and 8% non-platform growth. Software Dollar-Based Net Retention Rate was 112% at March 31, 2024, with platform software at 126% and non-platform software at 106%.

## Outlook

The company is updating its previously provided guidance for fiscal 2024:

	Previous 2024 Guidance	Updated 2024 Guidance
Revenues	\$1.675 billion	\$1.690 billion
GAAP Net Income	\$490 million	\$495 million
GAAP EPS	\$19.45	\$19.70
Non-GAAP Net Income	\$566 million	\$573 million
Non-GAAP EPS	\$22.45	\$22.80

The Non-GAAP financial measures are described in the financial table captioned “Reconciliation of Non-GAAP Guidance.”

## Company to Host Conference Call

The company will host a webcast on April 25, 2024 at 5:00 p.m. Eastern Time (2:00 p.m. Pacific Time) to report its second quarter fiscal 2024 results and provide various strategic and operational updates. The call can be accessed at FICO's web site at [www.fico.com/investors](http://www.fico.com/investors). A replay of the webcast will be available at our Past Events page through April 25, 2025.

## About FICO

FICO (NYSE: FICO) powers decisions that help people and businesses around the world prosper. Founded in 1956, the company is a pioneer in the use of predictive analytics and data science to improve operational decisions. FICO holds more than 215 US and foreign patents on technologies that increase profitability, customer satisfaction and growth for businesses in financial services, insurance, telecommunications, health care, retail, and many other industries. Using FICO solutions, businesses in more than 100 countries do everything from protecting 2.6 billion payment cards from fraud, to improving financial inclusion, to increasing supply chain resiliency. The FICO® Score, used by 90% of top US lenders, is the standard measure of consumer credit risk in the US and has been made available in over 40 other countries, improving risk management, credit access and transparency.

### **Statement Concerning Forward-Looking Information**

Except for historical information contained herein, the statements contained in this news release that relate to FICO or its business are forward-looking statements within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially, including the success of the Company’s Software segment’s business strategy, the Company’s ability to continue to develop new and enhanced products and services, the maintenance of its existing relationships and ability to create new relationships with customers and key alliance partners, disruptions and uncertainties with respect to global economic conditions as well as in industries and markets of the Company and its customers, the Company’s ability to keep up with rapidly changing technologies, its ability to recruit and retain qualified personnel, competition, regulatory changes applicable to the use of consumer credit and other data, the failure to protect such data, the failure to realize the anticipated benefits of any acquisitions, or divestitures, and material adverse developments in global economic conditions or the occurrence of certain other world events such as geopolitical tensions, military conflicts, the level and volatility of interest rates, the level of inflation, the continuing effects of the COVID-19 pandemic, an actual recession or fears of a recession, trade policies and tariffs, and political and governmental instability. Additional information on these risks and uncertainties and other factors that could affect FICO's future results are described from time to time in FICO's SEC reports, including its Annual Report on Form 10-K for the year ended September 30, 2023 and its subsequent filings with the SEC. If any of these risks or uncertainties materializes, FICO's results could differ materially from its expectations. Investors are cautioned not to place undue reliance on any such forward-looking statements, which speak only as of the date they are made. FICO disclaims any intent or obligation to update these forward-looking statements, whether as a result of new information, future events or otherwise.

**About Non-GAAP Financial Measures**

To supplement the consolidated GAAP financial statements, the company uses the following non-GAAP financial measures: non-GAAP net income, non-GAAP EPS, and free cash flow. Non-GAAP net income and non-GAAP EPS exclude, to the extent applicable, such items as the impact of amortization expense, share-based compensation expense, restructuring and acquisition-related, excess tax benefit, and adjustment to tax valuation allowance items. Free cash flow excludes capital expenditures. The presentation of these financial measures is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

Management uses these non-GAAP financial measures for financial and operational decision-making and as a means to evaluate period-to-period comparisons. Our management believes these non-GAAP financial measures provide meaningful supplemental information regarding our performance and liquidity by excluding certain items that may not be indicative of recurring business results including significant non-cash expenses. We believe management and investors benefit from referring to these non-GAAP financial measures in assessing our performance when planning, forecasting and analyzing future periods. These non-GAAP financial measures also facilitate management's internal comparisons to historical performance and liquidity as well as comparisons to our competitors' operating results. We believe these non-GAAP financial measures are useful to investors because they allow for greater transparency with respect to key measures used by management in its financial and operating decision-making.
